

Industrial Excess Landfill: The Buried Truth

Compelling facts, developments and people which indicate the presence of radiation at IEL in Uniontown, Ohio

- Eyewitnesses to dumping by Army trucks with radioactive markings (1969-70)
 - Field filtering: description and instances of, criticism and ending of procedure
 - Invalidation of results by EPA-approved private labs documenting radiation (never have seen some of these results, lab(s) were still paid, CEP, etc)
 - Historic denial of core sampling
 - SAB: a rigged process
-
- Admission(s) by EPA (U.S., Region and/or Ohio) of radiation but below threshold
 - Repeated killing of independent investigations (latest = EPA Ombudsman)
 - People: Resnikoff, Bertell, Cole, Grumbley, Clarke, Simon, Martin, Magel, staff of public officials
 - Double standard treatment by EPA toward PRP's and community (March, '97 testing)
