Not one more death. Not one more dollar.

To the members of the U.S. Congress:

U.S. military personnel continue to die in Iraq. More than 100,000 Iraqis have died since the U.S. invasion. More than $200 billion has been spent to fund this war.

Please end the war now by using the power given to you under the Constitution: Stop the funding, close all U.S. military bases in Iraq, and bring the troops home. It is time to end the destruction, and rebuild war-torn Iraq – and hurricane-ravaged communities in the U.S.
