SAVE OUR SEWERS AND WATER

Keep Akron's Public Utilities Public

The Mayor of Akron wants to sell or lease the city's sewer system. He wants to **give up control** over service and pricing to a private corporation. He wants City Council to **approve this scheme**.

This idea stinks!

Selling or leasing Akron's sewers or water system will...

- ...increase sewer rates
- ...decrease public jobs
- ...reduce control that We the People have over our public services

We the People have a better idea!

It's a **Citizen Initiative to prevent the selling or leasing of any public utility in Akron without a vote by the citizens of Akron. – We the People!**

SAY...

- NO** to the Mayor and City Council deciding to sell off our sewers
- NO** to increased sewer rates
- NO** to public job loss
- YES** to greater direct public control and authority over public assets
- YES I'll sign a petition to Save Our Sewers and Water!**
